

Terms and conditions for landlords:

Please read through the following carefully.

The private accommodation service is a free service from Student Services Freiburg.

- Registration of landlords:

After registration you can post, edit or delete accommodation offers on our website yourself. Your information is saved on the system for the purpose of providing accommodation. The records are subject to data protection.

- Registration of students:

Students must register to see and choose accommodation offers. Student numbers and educational institute are asked for during registration. In addition, we ask that you, the landlords, also request valid student identification before the signing of the contract. This is the only way you can be sure he/she is a student.

- Room offers

Please note that your offer is viewable for two weeks. It will be automatically removed if not extended. Three days before expiration, you will receive a reminder with a link enabling you to extend the offer. You can also modify or delete the offer yourself at any time e.g. when the room has been taken. This enables us to keep the database up-to-date and prevents you from receiving any unnecessary emails.

- Information emails:

You will receive reminders and emails from the accommodation service. The emails regard accommodation offers and are not advertisements.
